IPAK FS100 - FULLY AUTOMATIC FLANGE SEALER

DESIGNED FOR PROTEIN PACKAGING DEMANDS

In protein industry, packaging isn't optional, it's critical. Every tray must survive heavy loads, cold storage, transport, and retail handling without failure. That's why leading processors turn to the IPA K FS100.

Engineered for the protein industry, the FS-100 combines strength, speed, and consistency to keep your lines moving and your products protected.

By combining heavy-duty construction with operator-friendly features and precise sealing technology, it helps processors deliver safe, consistent, and secure packaging that meets the toughest demands of today's market.

WHY PROTEIN PROCESSORS TRUST THE IPAK FS100

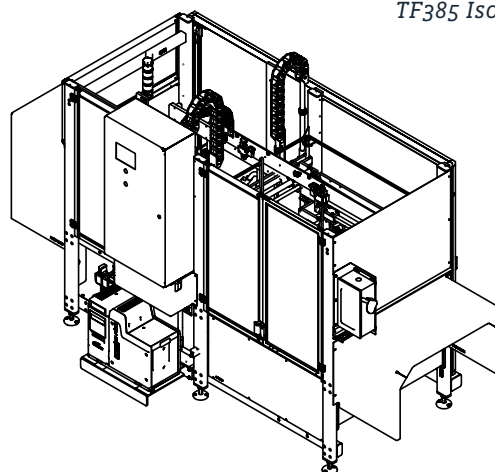

- Designed and built to withstand the rigors of continuous, heavy duty, industrial applications.
- Strong, reliable seals that protect product integrity through cold storage and distribution.
- Built to handle oversized and deep trays common in protein operations.
- User-friendly touchscreen controls that simplify operation and reduce errors
- Forms up to 20 trays per minute to keep production moving efficiently

KEY FEATURES

- Indexing Stop Gate
- Servo Tray Advance
- Nordson ProBlue Flex Hot Melt
- Color Touchscreen HMI
- UL Listed Control Panel and Enclosure
- Color-coded Tray Size Changeover
- Remote Demand Sensor
- Fully Interlocked Guard Doors

CONFIGURATION

TF385 Isometric View

PRODUCT SPECIFICATIONS

Standard Electrical Features	240V, 3-PHASE, 60HZ Control Circuit: 24VDC	Machine Weight	3,000 - 5,000 LBS (Aprox.)
Air Requirements	Approximately 1 CU. FT. Per Cycle 80 PSI (5.5 BAR) At Main Air Regulator	Machine Size	Space Required: 156" Length x 72" Width x 117" Height
Machine Speed	Up to 20 Trays Per Minute
